

# Getting Started With **GoTuition**

The **GoTuition**® **gifting portal** is an online tool that you can use to create a gifting profile for your beneficiaries, allowing friends and family to easily contribute to your accounts.

## How to Get Started

Follow these steps to sign up, customize and share your **GoTuition** profile.

**Log in to your Alaska 529 account.**

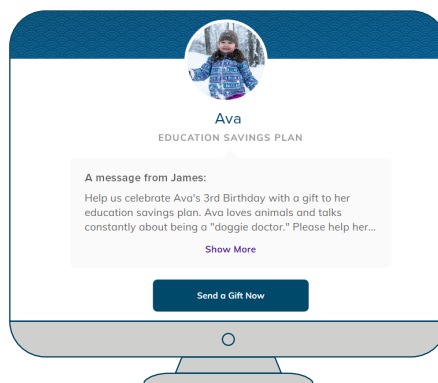

**Click the *GoTuition* gifting portal tile** and follow the instructions to sign up. Choose the account you would like to have gifts applied to.

**Create a personalized gifting profile for each of your beneficiaries.** Each beneficiary will have their own personalized gifting link. No matter how often you update their profile page, the URL will remain constant and never expire.

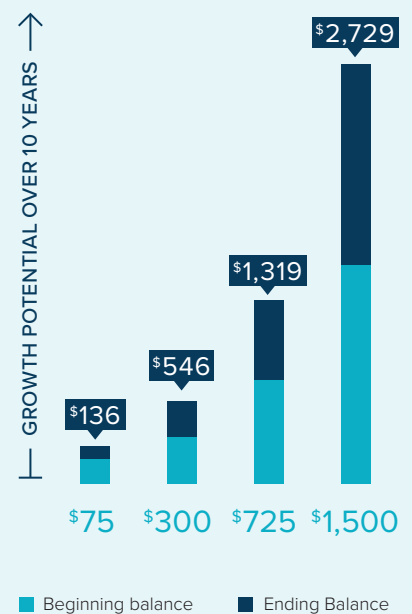

You can customize their profile picture and welcome message based on what you would like to say about your child. Some ideas include mentioning your child's age, grade, or dreams about what they want to be when they grow up. If you have a special event or holiday coming up, highlight it and share with friends and family so that they know just what to give your child. You can change your profile as often as you like, such as updating the message as your child grows or for specific times of the year in which your child might receive gifts.

**Share the link with your family and friends.** You can share the URL for your beneficiary's gifting profile however you wish. There are links that can help you share through Facebook, Twitter, or email. You can also copy and paste the URL into anything you'd like such as party invitations and birth announcements.
